

WELCOME TO OUR HOSPITAL

Our Goals:

Best Possible Care
Every Patient
Every Associate/Employee
Every Day

Thank you for allowing us to be a
part of your Healthcare Team.

Admitting Nurse:

+VISILERT
Simple. Effective. Inexpensive.

An important part of providing you with **Very Good** care and service is rounding. You will be visited by one of your caregivers:

EVERY HOUR from 6AM to 10PM
and EVERY 2 HOURS from 10PM to 6AM

During this time, we will be checking on you and your well being, helping you move and change positions, monitoring your comfort and pain, assisting in trips to the bathroom and ensuring your personal items are within reach. We use the Visilert device as a quiet reminder in providing you timely follow-up. This device will hang on the wall just outside your room.

What does this mean for YOU?

It means that we are trying to anticipate your personal needs and monitoring your well-being on an active basis so that you, your family and your visitors can focus on your recovery. You may receive a survey after you go home. We hope that you will take the time to give us your feedback so we know how to improve.

If you have questions during your stay, please call the number below so that we can address them.
